Joseph Barrett KC was appointed to silk in 2024, after only 15 years in practice. He is ranked by the professional directories as a leading KC in the fields of procurement (Band 1) and public and administrative law. Before his appointment, Joseph was for many years ranked by the professional directories as the “star individual” in procurement law.

Since taking silk, Joseph has been instructed as leading counsel on a number of the largest and most complex public and regulatory law cases to come before the English Courts. Recent examples of Joseph’s work include:

- *The New Lottery Company Ltd v The Gambling Commission* [2025] EWHC 486 (TCC); [2025] EWHC 1058 (TCC); [2025] EWHC 1710 (TCC): Joseph is leading counsel for Allwyn, the successful applicant and operator in respect of the fourth national lottery license, defending Richard Desmond’s claim for £1.3 billion in damages and declarations of ineffectiveness in respect of the national lottery license. The claims are listed for an 8 week High Court trial in September-November 2025.

He likes a good fight and is a hard worker. He’s great at giving a clear steer in a case, and he never sits on the fence.

Expertise

Procurement & State Aid

Joseph is ranked as a Band 1 practitioner by all of the main legal directories (Chambers & Partners, Legal 500 and Who's Who Legal).

He is widely regarded as the leading junior at the Bar in the field of EU procurement litigation and challenges to public sector contracts.

He is regularly instructed in leading cases (frequently against KCs). He has acted in more than 100 High Court EU procurement cases and has experience of litigation under all of the principal EU procurement regimes, i.e. public contracts, utilities and defence and security. He also has experience of advising both economic operators and public authorities in connection with EU Commission complaints and investigations regarding alleged breaches of the EU procurement and State aid regimes.

Joseph also has a very extensive advisory practice spanning the full range of procurement law. In particular, he has extensive experience of advising on issues such as the application of procurement law to development agreements and other land related transactions, post-tender variations to significant public contracts, public-private partnerships and the structuring of legal transactions in a manner that is consistent with procurement law.

A ridiculously clever man who is immensely driven and always strategically brilliant when handling a case.
